TOP SECRET

INSTALLATION: Chang-chia Ammunition Depot South, Lan-chou MR, China

LOCATION: The installation is 1.7 nautical miles (nm) south of Chuang-li and 12.2 nm northwest of Hsi-an/Yen-liang Airfield

25X1

GENERAL: The installation is on the east bank of the Shih-chuan Ho (river) in a primarily agricultural area. A rail spur serves the installation from the rail yard 1.7 nm north in Chuang-li.

The ammunition storage area appears to be double fence secured with guard towers between the fences, on high ground, commanding an unrestricted view of the area. The revetted ammunition storage buildings are road served. Ammunition is unloaded through a transloading building from railroad cars. The support area on the north side of the installation is secured by a single fence. Both rail and road access to the installation are controlled by gates.

Accuracy Statement:

Conversion from square meters to square feet was determined by the factor: 1 square meter equals 10.76 square feet.
